Stanbic Bank Connects with Pandamatenga Farmers

GABORONE – In a continuing effort towards growing and developing the agricultural sector in Botswana, Stanbic Bank Botswana will participate in the annual Pandamatenga Farmers Show. The Show, to be held on Farm QO 40 and 41 in Pandamatenga, is expected to run from the 29th to the 30th of June 2012.

“Stanbic Bank is fully committed to making every effort to cultivating Botswana’s agricultural potential to the greatest extent. Exhibitions such as this, the Pandamatenga Farmers Show, serve as an important tool or avenue through which we can achieve this objective. We, as Stanbic Bank, are very excited to come on board,” said Mr. Kenneth Makubate, Stanbic Bank Head of Agribusiness.

The Pandamatenga Farmers Show strives to act as a platform for Pandamatenga farmers to expose their trade to the public and to fellow farmers and organisations in the industry. The exhibition facilitates the vital interaction between farmers and other industry professionals. Stanbic Bank will operate a stall at the Show, distributing information on all of the products and services it has on offer for those in the agriculture sector.

Said Ms. Shelagh Swynnerton, Show Committee Sales Representative, “The Pandamatenga Farmers want to use this forum to share best practices and be recognised for their efforts in the agricultural sector. It is very much about exposure and making the right connections to further their agricultural business efforts.”

“Stanbic Bank has been working with the agricultural businesses across Botswana and recently we exhibited in Sandvelt and Tshepe Farmers Field Days. This is one more effort in our journey towards developing the agricultural sector and moving the farmers in Botswana forward, a sector that is of vital importance to our economy” concluded Mr. Makubate.
